to
Acella Construction
for
Provincetown Art Association and Museum
designed by Machado and Silvetti Associates

President, Boston Society of Architects

Provincetown Art Association and Museum

Provincetown, MA

► PROJECT SUMMARY

High-profile construction of a 15,000 square foot addition to an existing museum to house galleries, classrooms and vault storage. This project was constructed under the LEED program guidelines for silver certification, and won several design and construction awards for both the architect and Acella Construction.

Architect:

Machado & Silveti Associates

Completed:

2006
