As spring turns to summer, Acella Construction's team is going full speed in order to complete two significant projects, Friendship Home in Norwell and Riverview Schools new Student Center in East Sandwich.

The Acella team is moving full speed ahead at **RIVERVIEW SCHOOL**, pushing to turn the project over to the Riverview School before school starts in the fall. *"We experienced a few bumps in the road, but we've had a great team in place from the beginning of the project, and we're fully anticipating turning over the new Student Center on time,"* said Saul Schrader, Acella's lead Project manager for Riverview School. The new Student Center, which is pursuing LEED certification, will become the heart of Riverview's campus. The 20,000 square foot Center and its programs will transform the School and have replaced the former center, Janse Hall. The new Student Center will include a modern 325-seat auditorium that is large enough to house the entire Riverview community in one sitting. It will include an outdoor amphitheater, a library/media center, classrooms and studios for creative arts, and a much needed commons for social gathering. The Center will also house the admissions office and will become the welcome center for all visitors to campus.

At **FRIENDSHIP HOME**, finishing touches are being applied, and the Friendship Home organization is preparing to move into their new headquarters in July. *"The project has been run on an aggressive schedule,"* said Ryan Klebes, Project Manager for Acella Construction. Construction of the 14,000 s.f. project began in November. The new facility will provide respite care and will include office space and an activity center where people

with developmental disabilities can participate in day or evening activities. Members of Friendship Home can stay in the residence hall for periods of up to two weeks, giving them a safe and stimulating environment, and providing needed respite for their caregivers. The activity center will also serve as a central location for the group's Friendship Clubs that have about 65 members who meet in Quincy, Duxbury, and Norwell for social activities and community service projects. *"It's a real honor for Acella Construction to have been selected to manage the construction of this project,"* said David Dirubbo, President of Acella Construction. *"Being a Norwell resident, I realize how important this type of project is to the community."* The project was designed by David Dunlap of Dunlap & Associates, located in Norwell, MA.

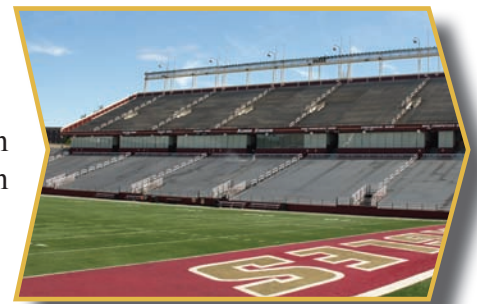

## NEW WORK & RECENT AWARDS

### » ACELLA CONSTRUCTION SELECTED BY BOSTON COLLEGE FOR LABORATORY PROJECTS

Acella Construction Corporation announced that it was selected to renovate a laboratory in Boston College's Higgins Hall. The work performed will include all new mechanical and electrical systems, finishes, and wall re-configurations, in addition to cutting and reconfiguring 6 levels of mechanical ductwork. The project will begin immediately, and is due to be completed July 1st. *"We're very excited that Boston College has selected Acella Construction for this project. This project, which is Acella's first at Boston College, reinforces our commitment to providing superior levels of service and construction expertise to the academic community here in New England,"* said Randy DiBartola, Acella's Director of Business Development.

### » BOSTON COLLEGE SELECTS ACELLA CONSTRUCTION FOR STADIUM SUITE RENOVATION

Acella Construction Corporation was selected to renovate the suites at Boston College's Alumni Stadium and Conte Forum. The work is scheduled to begin immediately. *"We're excited to get started and continue our relationship with Boston College. The work on the 32 suites, which needs to be coordinated around final exam schedules, as well as Boston College's commencement and summer school activities, will be run on an aggressive schedule to maximize the short window of time we have available to complete this project,"* said Randy DiBartola, Director of Business Development for Acella Construction. This project will run concurrently with another project Acella was recently awarded at Boston College, the Wilson laboratory renovation.

### » WELLFLEET PRESERVATION HALL & ACELLA CONSTRUCTION HOLD GROUNDBREAKING CEREMONY

Left: Marla Rice, Wellfleet Preservation Hall President

WELLFLEET, MA — Wellfleet Preservation Hall held their official groundbreaking ceremony March 20th to celebrate the beginning of construction for their new community center. Several hundred Wellfleetians gathered behind Preservation Hall at 335 Main St. to break ground for the new building that is currently under construction and will be completed by late fall. The actual ceremony was timed to coincide with the arrival of spring at 1:32 p.m. Marla Rice, president of Wellfleet Preservation Hall Inc., announced that this not-for profit group had already raised more than \$1 million

to turn the former Catholic Church into a community center. Marge Piercy, poet and writer, read a poem she created for the occasion, and state Rep. Sarah Peake congratulated the town for "adding another jewel to your beautiful and stellar cultural crown." In addition to completely gutting and then renovating the former Catholic Church, Acella will also be adding a 2,200 s.f, 2 level addition to the existing structure. The building will become a hub for cultural, recreational and intellectual programs, and will provide a unique venue for civic, educational, social and creative arts events.

## » ACELLA CONSTRUCTION HOSTS STUDENTS FROM SOUTH SHORE REGIONAL VOC-TECH HIGH SCHOOL

NORWELL, MA — Acella Construction Corporation hosted students from Hanover's South Shore Regional Vocational Technical School at their Friendship Home construction site last Friday afternoon. The students were escorted throughout the construction site by Friendship Home architect David Dunlap from David Dunlap Associates and Ryan Klebes, Project Manager for Acella Construction. "Acella Construction is committed to giving back to our community," said David Dirubbo, President of Acella Construction. "Anything we can do to get more young people involved with our profession is great."

## BUILDING RELATIONSHIPS » ONE PROJECT AT A TIME...

## » ACELLA CONSTRUCTION WELCOMES FOUR NEW TEAM MEMBERS!

Acella Construction is excited to introduce (pictured left to right):

Sean Smiley, *Project Manager*;

Susan Crowe, *Controller*; Piper Garrison, *Project Coordinator* and Scott Brash, *Project Superintendent*.

May 22, 2010

Last year, I chose Acella Construction as the general contractors for our new 1.5 million dollar Veterinary clinic. I could not have made a better decision. Acella provided top quality workmanship and a near stress free experience. They were extremely accommodating and professional in every aspect of the job. Their staff is friendly and knowledgeable; a pleasure to work with.

*We believe there's a need for the services of a company that is enthusiastic, focused, and committed to ensuring that the clients' objectives, goals and needs are consistently met. In addition to providing a quality built product within the agreed upon schedule, we bring to the table professionalism, expertise, experience, communication skills and a pro-active "can do" approach.*

*We align ourselves with our clients in a truly partnered environment to provide quality solutions for our clients' construction needs. Not only will the "bricks and mortar" be a quality product, but the entire process will be enhanced through Acella's participation. Our clients receive the attention and cost effectiveness of a small firm with the knowledge and experience of a larger firm.*
