GROUND BREAKING CEREMONY FOR NEW FACILITY

Friendship Home held their official ground breaking ceremony to celebrate the beginning of construction for their new facility. Acella Construction has been handling preconstruction for the 14,000sf facility, and will continue to provide construction services for the project. Friendship Home provides respite care and will include office space and an activity center where people with developmental disabilities can participate in day or evening activities. Members of Friendship Home can stay in the residence hall for periods of up to two weeks, giving them a safe and stimulating environment, and providing needed respite for their caregivers. Friendship Home was begun 10 years ago by Norwell residents Wilma Goodhue and Joan Mullare, both who have adult children with developmental disabilities. The activity center will also serve as a central location for the group's Friendship Clubs that have about 65 members who meet in Quincy, Duxbury, and Norwell for social activities and community service projects.

NEW WORK & RECENT AWARDS

» ACELLA CONSTRUCTION SELECTED BY NORTHEASTERN UNIVERSITY TO RENOVATE LABS

Acella Construction Corporation was selected to renovate two labs for Northeastern University. The work performed will include all new mechanical and electrical systems, finishes, and wall reconfigurations. Both fast-track renovation projects will run concurrently. These will be the 9th and 10th renovation projects that Acella Construction has been selected to manage for Northeastern University, further strengthening its long-term relationship with the school.

» ACELLA CONSTRUCTION AWARDED WELLFLEET PRESERVATION HALL PROJECT

Acella Construction Corporation has been selected to manage the construction for the Wellfleet Preservation Hall. The plans call for Acella to completely gut and then renovate the former Catholic Church and transform this beloved historic structure into a year-round cultural center that will help to revitalize Main Street in Wellfleet, MA. The plans also include adding a 4000 s/f addition to the existing structure. The building will become a hub for cultural, recreational and intellectual programs, and will provide a unique venue for civic, educational, social and creative arts events.

“It’s been a great experience for Acella Construction to work so closely with Marla Rice, President of the Wellfleet Preservation Hall Board, Architect Jim Hadley, and the entire committee on this project,” said David Dirubbo, President of Acella Construction. *“This project continues to solidify our commitment to working on the Cape. I realize how important this type of project is to the community, and we’re excited to get started on building the facility that this community has been dreaming of for so long.”*

Acella has been doing preconstruction services on this project since October, and construction of the project is scheduled to begin in March. The architect for the project is Hadley Crow Studio of Orleans, MA.

» ACELLA CONSTRUCTION SELECTED TO BUILD LATEST PROJECT FOR HOSTELING INTERNATIONAL IN HYANNIS, MA

Acella Construction Corporation has been selected to build and renovate a new 40 bed hostel for Hosting International. The project will be located on Ocean Street, just north of the Hy-Line Cruise docks, and directly across from the Hyannis Harbor. The 4 building complex will be managed on a very aggressive schedule, with a grand opening scheduled for the first week of July, 2010. Hosting International oversees more than 90 Youth Hostel Associations in 90 countries, operating some 4,000 hostels worldwide.

Construction is scheduled to begin immediately. The project was designed by Robert D. Evans of A+E Architects-Builders, located in Brewster, MA

» ACELLA CONSTRUCTION SELECTED BY WAL-MART TO RENOVATE SWANSEA LOCATION

Acella Construction Corporation has been selected by Wal-Mart Corporation to renovate their Swansea Mall location. The fast-track renovation will begin January 4th and is scheduled to be completed by the end of the month. The store plans to remain open the entire time, requiring Acella to work closely with Wal-Mart's logistics teams to schedule work and retail deliveries. The 112,000 s/f renovation will include new flooring, fixtures, restrooms, interior and exterior signage, as well as renovations to the associate break rooms and office space.

"Acella Construction is excited to have been selected to renovate this retail space. Working for a client like Wal-Mart requires our field and management staff to tightly manage the construction schedule to ensure that we have a successful project for our client. Our team has been to Wal-Mart's headquarters in Bentonville, AK for their training programs, and we're excited to begin this relationship with Wal-Mart. This project will give us the opportunity to successfully deliver a fast-track renovation and to provide the first-class service our client expects" said David Dirubbo, President of Acella Construction.

COMPLETED PROJECTS

» ACELLA CONSTRUCTION COMPLETES ELECTROCHEMISTRY LAB AT NORTHEASTERN UNIVERSITY IN BOSTON

Acella Construction Corporation recently completed the construction of an electrochemistry lab, known as Mugar Hall Lab 006A, at Northeastern University in Boston. The work included extensive relocation of existing utilities and the installation of new mechanical systems to support the laboratory. Also included was the installation of new case work, epoxy tops and fume hood.

» SOUTH COASTAL ANIMAL HEALTH AND ACELLA CONSTRUCTION CELEBRATE GRAND OPENING FOR NEW VETERINARY HOSPITAL

WEYMOUTH, MA -- South Coastal Animal Health is moving into a newly constructed and larger location to accommodate its growing business. Since opening the original location in 2006, South Coastal

Animal Health has grown to accumulate 5,000 clients and has 18 staff members, including four doctors. An open house was held on Sunday December 13th to show off the facility. The new building, located at 1389 Main St. in Weymouth, opened on December 7th. The 2 story, 7,900 s/f facility includes six new exam rooms, a new surgery suite, and an in-house X-ray suite, in addition to several doctors' offices and a lounge area. Owner Dr. Grace Strake, who started the business in 2006, bought the land, which had been an abandoned lot for 20 years, in 2007.

"Acella is very happy to have been able to work with Dr. Grace Strake and her team to build this project. This new building will give Dr. Strake the opportunity to service her growing client base in the most modern veterinary facility on the south shore," said Saul Schrader, Project Manager. The project was designed by Copich & Associates Architects.

**Acella Construction Corporation
provides construction services
to select quality clients in the
following markets:**

- » COMMERCIAL
- » CORPORATE INTERIORS
- » INSTITUTIONAL
- » HEALTHCARE
- » RETAIL
- » RESTAURANT

We believe there's a need for the services of a company that is enthusiastic, focused, and committed to ensuring that the clients' objectives, goals and needs are consistently met. In addition to providing a quality built product within the agreed upon schedule, we bring to the table professionalism, expertise, experience, communication skills and a pro-active "can do" approach.

We align ourselves with our clients in a truly partnered environment to provide quality solutions for our clients' construction needs. Not only will the "bricks and mortar" be a quality product, but the entire process will be enhanced through Acella's participation. Our clients receive the attention and cost effectiveness of a small firm with the knowledge and experience of a larger firm.
